ENERGY STAR is a program run by the U.S. Environmental Protection Agency (EPA) and U.S. Department of Energy (DOE) that promotes energy efficiency. This product qualifies for ENERGY STAR as the "factory default" settings and this is the setting in which power savings will be achieved. Changing your display picture settings or enabling other features will increase power consumption that could exceed the limits necessary to qualify for ENERGY STAR rating. For more information on the ENERGY STAR program, refer to energystar.gov.

Cable information

CAUTION: Use the provided specified cables with this monitor so as not to interfere with radio and television reception. For mini D-Sub 15-pin, please use a shielded signal cable with ferrite core. For HDMI, DisplayPort, USB and AUDIO, please use a shielded signal cable. Use other cables and adapters may cause interference with radio and television reception.

Informazioni su Kabeln

VORSICHT: Verwenden Sie die mitgelieferten bzw. angegebenen Kabel mit diesem Monitor, um Störungen des Rundfunk- bzw. Fernsehempfangs zu vermeiden. Verwenden Sie für den 15-poligen Mini-D-SUB-Anschluss ein abgeschirmtes Signalkabel mit einem Ferritkern. Verwenden Sie für HDMI, DisplayPort, USB und AUDIO abgeschirmte Signalkabel. Die Verwendung anderer Kabel und Adapter kann zu Störungen des Rundfunk- und Fernsehempfangs führen.

Información del cable

ADVERTENCIA: Utilice los cables específicos que se suministran con este monitor para no provocar interferencias en la recepción de radio y televisión. Para mini D-Sub de 15 pines, utilice un cable de señal apantallado con núcleo de ferrita. En el caso de HDMI, DisplayPort, USB y AUDIO, utilice un cable de señal apantallado. Si utiliza otros cables y adaptadores, puede causar interferencias en la recepción de radio y televisión.

Informazioni relatives aux câbles

ATTENTION : utilisez les câbles fournis avec ce moniteur pour éviter tout problème en matière de réception (radio et télévision). Le câble de signal blindé mini D-Sub 15 broches doit être utilisé en association avec un noyau de ferrite. Avec les ports HDMI, DisplayPort, USB et AUDIO, employez un câble de signal blindé. L'utilisation d'autres types de câbles et d'adaptateurs peut provoquer des interférences avec la réception radio et télévision.

Informazioni sul cavo

ATTENZIONE: Utilizzare i cavi specifici forniti con questo monitor per non causare interferenze con la ricezione radiotelevisiva. Per i connettori mini D-Sub a 15 pin, utilizzare un cavo segnale schermato con nucleo in ferrite. Per HDMI, DisplayPort, USB e AUDIO, utilizzare un cavo segnale schermato. L'uso di cavi e adattatori diversi può provocare interferenze con la ricezione radiotelevisiva.

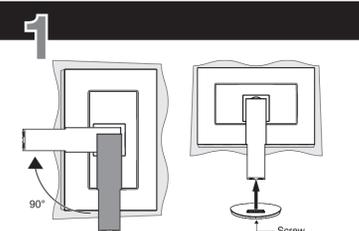

Информация о кабеле

ВНИМАНИЕ. Во избежание помех при приеме радио- и телепередач для данного монитора необходимо использовать комплектные кабели. Для mini D-Sub 15-pin используйте кабель, экранированный с ферритовым сердечником. Для HDMI, DisplayPort, USB и AUDIO используйте экранированный кабель. Использование адаптеров или других кабелей может привести к возникновению помех при приеме радио- и телепередач.

Kablo bilgisi

UYARI: Radyo ve televizyon alımı ile karışması için bu monitörle birlikte verilen teknik özellikleri belirlemiş kabloları kullanın. D-Sub 15-pin için lütfen ferrit çekirdekli korumalı bir sinyal kablosu kullanın. HDMI, DisplayPort, USB ve AUDIO için korumalı bir kablo kullanın. Diğer kablolar ve adaptörlerin kullanımı radyo ve televizyon alımı ile interferans yaratabilir.

Optimal Performance/Optimale Leistung/Rendimiento óptimo/Performances optimales/Prestazioni ottimali/Оптимальная работа/Optimum Performans

Place the monitor face down on a non-abrasive surface (so that the control keys don't touch it) and rotate the monitor stand 90° to attach it to the rear side of the monitor; then attach the base to the monitor stand, then tighten the screw at the base's bottom.

Legen Sie den Monitor mit der Oberseite nach unten auf eine glatte Oberfläche (die Bedientasten dürfen diese nicht berühren), und schwenken Sie den Monitorfuß um 90 Grad. Befestigen Sie diesen anschließend an der Rückseite des Monitors, bringen Sie den Sockel am Monitorfuß an, und ziehen Sie die Schrauben an der Unterseite des Sockels fest.

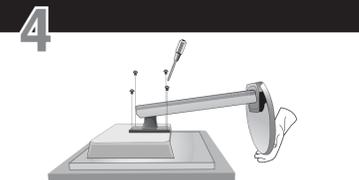

Coloque el monitor boca abajo sobre una superficie no abrasiva (para que las teclas no la toquen) y gire el soporte del monitor 90° hasta fijarlo en la parte trasera del monitor. A continuación, fije la base al soporte del monitor y apriete el tornillo situado en la parte inferior de la base.

Placez le moniteur face vers le bas sur une surface non abrasive (de telle sorte que les boutons ne soient pas en contact avec la surface) et faites pivoter le support de 90 degrés pour le fixer à l'arrière du moniteur. Attachez ensuite le socle au support et serrez correctement les vis situées au bas du socle.

Posizionare il monitor capovolto su una superficie non abrasiva (in modo che i tasti di controllo non siano in contatto con la superficie) e ruotare il supporto di 90° per collegarlo al lato posteriore del monitor, quindi collegare la base al relativo supporto e stringere la vite nella parte inferiore della base.

Поместите монитор лицевой стороной вниз на неабразивную поверхность (при этом кнопки управления не должны ве касаться) и поверните подставку монитора на 90°, чтобы присоединить ее к задней панели монитора; затем прикрепите основание к подставке монитора и надложив основание затяните винт на нижней части основания.

Monitörü aşağıya doğru yüzü izlerine aşağı bakarak yukarıya yerleştirin (kontrol tuşlarını temas etmemeleri için) ve monitör ayağını monitörün arkasına takmak için 90° döndürün; daha sonra monitör ayağını tabana takın, sonra tabanın altındaki vidayı sıkıştırın.

See User's Manual for complete instructions on how to remove screws and monitor stand. Ausführende Anweisungen zum Entfernen der Schrauben und des Monitorfußes finden Sie im Benutzerhandbuch.

Consulte el manual de usuario para instrucciones completas sobre cómo extraer los tornillos y la base del monitor. Consultez le Manuel de l'utilisateur pour obtenir des instructions complètes sur le retrait des vis et du support du moniteur.

Vedere il Manuale dell'utente per le istruzioni complete su come rimuovere le viti e il supporto del monitor. Для получения подробных инструкций о том, как правильно открутить винты и снять подставку монитора, обратитесь к руководству пользователя.

Yıldırım ve monitör desteğinin nasıt çıkartılacağına ilişkin talimatlar için Kullanıcı Kılavuzuna bakın.

Flexible Arm Installation

This LCD monitor is designed for use with a flexible arm. Contact NEC for more information.

To prepare the monitor for alternate mounting purposes:

- Follow the instructions provided by the manufacturer of the display mount.

CAUTION: To meet the safety requirements, the monitor must be mounted to an arm that supports the weight of the monitor. See the Specifications page in the user's manual for details. Remove the monitor stand before mounting.

Remove the Monitor Stand for Mounting

To prepare the monitor for alternate mounting purposes:

- Disconnect all cables.
- Place your hands on each side of the monitor and lift up to the highest position.
- Place monitor face down on a non-abrasive surface (Figure S.1).

NOTE: Handle with care when the monitor is facing down.
4.Remove the 4 screws connecting the monitor stand to the monitor (Figure S.1).
NOTE: Please securely hold the monitor stand while removing the screws to prevent the monitor stand from falling.

5.Remove the stand (Figure S.2).

6.The monitor is now ready for mounting in an alternate manner.

7.Connect the cables to the rear side of the monitor.

8.Reverse this process to re-attach the monitor stand.

NOTE: Use only VESA-compatible alternate mounting method. Handle with care when removing the monitor stand.

NOTE: Match "TOP SIDE" mark on stand to top side of the monitor when re-attaching stand.

Mount Flexible Arm

This LCD monitor is designed for use with a flexible arm.

1.Follow the instructions on how to Remove Monitor Stand for Mounting.

2.Using the specified 4 screws, attach the arm to the monitor (Figure F.1).

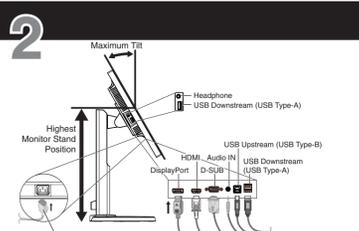

CAUTION: Use ONLY the screws (4 pcs) that were removed from the monitor stand or the specified screws (Figure F.1) to avoid damage to the monitor or monitor stand.

To meet the safety requirements, the monitor must be mounted to an arm which guarantees the necessary stability under consideration of the weight of the monitor.

The LCD monitor should only be used with an approved arm (e.g. TÜV GS mark).

Tighten all screws (recommended Fasten Force: 98 - 137 N*cm). A loose screw may cause the monitor to fall off the arm.

Attaching the flexible arm should be done by two or more people if the monitor cannot be placed face down on a flat surface for installation.

Locate all inputs and make sure that all cords and cables are properly connected. Schließen Sie alle Kabelverbindungen korrekt an die jeweiligen Eingänge an. Ubique todas las entradas y asegúrese de que todos los cables están conectados correctamente.

Localisez toutes les entrées et assurez-vous que tous les cordons et câbles sont correctement connectés. Individuare tutti gli ingressi e assicurarsi che tutti i cavi siano collegati nel modo appropriato.

Найдите все входы и убедитесь, что все провода и кабели подсоединены надлежащим образом. Tüm girişleri belirleyin, tüm kordonları ve kabloların doğru bağlandığından emin olun.

Placez le moniteur face vers le bas sur une surface non abrasive (de telle sorte que les boutons ne soient pas en contact avec la surface) et faites pivoter le support de 90 degrés pour le fixer à l'arrière du moniteur. Attachez ensuite le socle au support et serrez correctement les vis situées au bas du socle.

Posizionare il monitor capovolto su una superficie non abrasiva (in modo che i tasti di controllo non siano in contatto con la superficie) e ruotare il supporto di 90° per collegarlo al lato posteriore del monitor, quindi collegare la base al relativo supporto e stringere la vite nella parte inferiore della base.

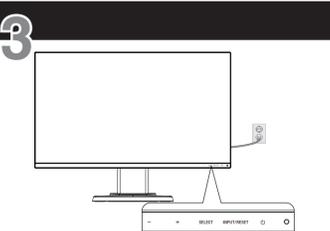

Поместите монитор лицевой стороной вниз на неабразивную поверхность (при этом кнопки управления не должны ве касаться) и поверните подставку монитора на 90°, чтобы присоединить ее к задней панели монитора; затем прикрепите основание к подставке монитора и надложив основание затяните винт на нижней части основания.

Monitörü aşağıya doğru yüzü izlerine aşağı bakarak yukarıya yerleştirin (kontrol tuşlarını temas etmemeleri için) ve monitör ayağını monitörün arkasına takmak için 90° döndürün; daha sonra monitör ayağını tabana takın, sonra tabanın altındaki vidayı sıkıştırın.

İlavə bilgiler ya da Kullancı Kılavuzunu görüntülemek için web sitesini ziyaret edin.

NOTE: Adjustment of the volume control as well as the equalizer to settings other than the center position may increase the ear-headphones output voltage and therefore the sound pressure level. **HINWEIS:** Eine Einstellung des Lautstärkereglers und des Equalizers auf andere als von der Mittelstellung vorgegebene Einstellungen kann die Ausgangsspannung am Ohr-/Kopfhörerausgang und damit auch den Schalldruckpegel erhöhen.

Find the keys used for OSD controls at the bottom of the monitor. Die Tasten für die OSD-Steuernngen befinden sich unten am Monitor. Busque las teclas utilizadas para los controles OSD en la parte inferior del monitor. Les touches utilisées pour les commandes OSD se trouvent au bas du moniteur. Individuare i tasti utilizzati per i controlli OSD nella parte inferiore del monitor.

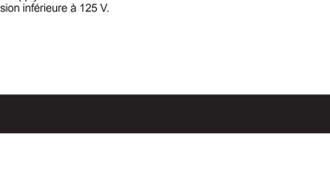

В нижней части монитора найдите кнопки, используемые для управления экраном меню. Monitörün altında OSD kontrolleri için kullanılabar tuşları bulun.

Placez le moniteur face vers le bas sur une surface non abrasive (de telle sorte que les boutons ne soient pas en contact avec la surface) et faites pivoter le support de 90 degrés pour le fixer à l'arrière du moniteur. Attachez ensuite le socle au support et serrez correctement les vis situées au bas du socle.

Installation auf einem Traggarm

Dieser LCD-Monitor kann mit einem Traggarm verwendet werden. Weitere Informationen erhalten Sie bei NEC.

So bereiten Sie den Monitor für eine alternative Montage vor:

- Befolgen Sie die Anweisungen des Herstellers der Monitorhalterung.
- CAUTION:** Die Sicherheitsvorschriften verlangen, dass der Monitor an einem Traggarm montiert wird, der das Gewicht des Monitors unterstützt. Einzelheiten finden Sie auf der Seite mit den technischen Daten in der Bedienungsanleitung. Entfernen Sie vor der Montage den Monitorfuß.
- So bereiten Sie den Monitor für eine alternative Montage vor:
- Ziehen Sie alle Kabel ab.
 - Fassen Sie den Monitor auf beiden Seiten, und heben Sie ihn in die höchste Position.
 - Legen Sie den Monitor mit der Vorderseite nach unten auf eine glatte Oberfläche (Abbildung S.1).

HINWEIS: Legen Sie den Monitor vorsichtig mit dem Display nach unten ab.

4. Entfernen Sie die 4 Schrauben, mit denen der Monitorfuß am Monitor befestigt ist (Abbildung S.1).

HINWEIS: Halten Sie den Monitorfuß fest, während Sie die Schrauben entfernen, damit der Monitorfuß nicht herunterfällt.

5. Entfernen Sie den Monitorfuß (Abbildung S.2).

6. Der Monitor kann jetzt anders montiert werden.

7. Schließen Sie die Kabel an der Rückseite des Monitors an.

8. Führen Sie die Schritte in umgekehrter Reihenfolge aus, um den Monitorfuß wieder anzubringen.

HINWEIS: Verwenden Sie ausschließlich VESA-kompatible Montagevorrichtungen. Entfernen Sie den Monitorfuß vorsichtig.

HINWEIS: Richten Sie beim Wiederanbringen des Monitorfußes die Markierung „TOP SIDE“ an der Oberseite des Monitors aus.

Montage des Tragarms

Dieser LCD-Monitor kann mit einem Traggarm verwendet werden.

1. Beachten Sie die Anleitungen im Abschnitt „Entfernen des Monitorfußes für die Montage“.

2. Verwenden Sie die vier angegebenen Schrauben, um den Traggarm am Monitor zu befestigen (Abbildung F.1).

CAUTION: Verwenden Sie NUR die Schrauben (4 Stück), die vom Monitorfuß entfernt wurden, oder die angegebenen Schrauben (Abbildung F.1), um weder den Monitor noch den Monitorfuß zu beschädigen.

Die Sicherheitsvorschriften verlangen, dass der Monitor an einem Traggarm montiert wird, der für das Gewicht des Monitors ausreichend stabil ist. Der LCD-Monitor sollte nur auf einem zugelassenen Arm montiert werden, der beispielsweise mit einem TÜV GS-Zeichen versehen ist.

Ziehen Sie alle Schrauben fest (empfohlene Befestigungskraft: 98 - 137 N*cm).

Bei lockeren Schrauben kann sich der Monitor beim Tragen lösen.

Zum Anbauen des Tragarms sind mindestens zwei Personen erforderlich, wenn der Monitor hierfür nicht von der Bildschirmoberfläche nach unten auf einer ebenen Oberfläche abgelegt werden kann.

Important information

WARNING: To prevent fire or shock hazards, do not expose this unit to rain or moisture. Do not connect or disconnect this product during an electrical storm.

Also, do not use this unit's polarized plug with an extension cord receptacle or other outlets unless the prongs can be fully inserted. Refrain from opening the cabinet as there are high voltage components inside. Refer servicing to qualified service personnel.

CAUTION: To reduce the risk of electric shock, make sure the power cord is unplugged from the wall socket. To fully disengage the power to the unit, please disconnect the power cord from the AC outlet.

Do not remove cover (or back). No user serviceable parts inside. Refer servicing to qualified service personnel.

Please use the power cord provided with this display in accordance with the instructions. If not supplied with this equipment, please contact NEC. For all other cases, please use the power cord with the plug style that matches the power socket where the monitor is located. The compatible power cord corresponds to the AC voltage of the power outlet and has been approved by, and complies with, the safety standards in the country of purchase.

This equipment is designed to be used in the condition of the power cord connected to the earth. If the power cord is not connected to the earth, it may cause electric shock. Please make sure the power cord is earthed properly.

This symbol warns user that uninsulated voltage within the unit may have sufficient magnitude to cause electric shock. Therefore, it is dangerous to make any kind of contact with any part inside this unit.

This symbol alerts the user that important literature concerning the operation and maintenance of this unit has been included. Therefore, it should be read carefully in order to avoid any problems.

Safety Precautions and Maintenance

FOR OPTIMUM PERFORMANCE, PLEASE NOTE THE FOLLOWING WHEN SETTING UP AND USING THE LCD COLOR MONITOR:

About the Symbols

To ensure safe and proper use of the product, this manual uses a number of symbols to prevent injury to you and others as well as damage to property. The symbols and their meanings are described below. Be sure to understand them thoroughly before reading this manual.

WARNING: Failing to heed this symbol and handling the product incorrectly could result in accidents leading to major injury or death. **CAUTION:** Failing to heed this symbol and handling the product incorrectly could result in personal injury or damage to surrounding property.

WARNING

Unplug the power cord if the monitor malfunctions. Should the monitor emit smoke or strange odors or sounds, or if the monitor has been dropped or the cabinet broken, turn off the monitor's power, then unplug the power cord from the power outlet. Failure to do so could not only lead to fire or electric shock, it could also result in vision impairment. Contact your dealer for repairs.

Never try to repair the monitor on your own. Doing so is dangerous.

To prevent damage to the monitor caused by tipping over due to earthquakes or other shocks, make sure to install the monitor in a stable location and take measures to prevent falling.

Immediately turn off the power and unplug your monitor from the wall outlet, then refer servicing to qualified service personnel under the following conditions. If the monitor is used in this condition, the monitor may fall or cause a fire or electric shock.

- If the monitor stand has cracked or peeled.
- If you notice any structural damage such as cracks or unnatural wobbling.

Do not open the monitor. There are high voltage areas in the monitor. Opening or removing covers may expose you to dangerous shock hazards or other risks. Refer all servicing to qualified service personnel.

Handle the power cord with care. Damaging the cord could lead to fire or electric shock.

- Do not place heavy objects on the cord.
- Do not place the cord under the monitor.
- Do not cover the cord with a rug, etc.
- Do not scratch or modify the cord.
- Do not bend, twist or pull the cord with excessive force.
- Do not apply heat to the cord.

Should the cord be damaged (exposed core wires, broken wires, etc.), contact your dealer to replace it.

Do not place this product on a sloping or unstable cart, stand or table, as the monitor may fall, causing serious damage to the monitor.

Do not use the monitor if the monitor was dropped or the cabinet is damaged.

Do not insert objects of any kind into the cabinet slots, as they may touch dangerous voltage points, which can be harmful or fatal, or may cause electric shock, fire or equipment failure.

Do not spill any liquids into the cabinet or use your monitor near water. Immediately turn off the power and unplug your monitor from the wall outlet, then refer servicing to qualified service personnel under the following condition. If the monitor is used in this condition, the monitor may fall or cause an electric shock or start a fire.

- If liquid has spilled or objects have fallen into the monitor.

The power supply cord you use must have been approved by and comply with the safety standards of your country. (e.g. Type H05VV-F 3G 0.75 mm² or equivalent in Europe).

In the UK use a BS-approved power cord with a molded plug having a black (5 A) fuse installed for use with this monitor.

Do not disassemble the monitor. Do not remove or open the monitor's cabinet. Do not modify the monitor. There are high voltage areas in the monitor. Modifying the monitor could lead to a fire or electric shock.

Do not play with the plastic bag which covers the monitor. Do not use this bag for any other purpose. To avoid the danger of suffocation, do not place this bag over your head, nose or mouth. Do not place this bag over another person's head, nose or mouth. Keep this bag away from children and babies.

Do not connect headphones to the monitor while you are wearing them. Depending on the volume level, it may damage your ears and cause loss of hearing. Do not bind the USB cable. It may trap heat and cause a fire.

To ensure the monitor's reliability, please clean the ventilation holes at the rear side of the cabinet at least once a year to remove dirt and dust. Regularly dust off the power cord by using a soft dry cloth. Dust build-up on the power cord's plugs and cable could cause an electric shock and result in a fire.

Handle with care when transporting. To safely transport and securely install the monitor, please use as many people as necessary to be able to lift the monitor without causing personal injury or damage to the monitor.

Troubleshooting

No picture

- Make sure the signal cable is fully connected to both the monitor and the computer.
- Make sure the computer's display card is fully seated in its slot.
- Do not use a DisplayPort converter adapter. This device is not supported.
- Make sure both the computer and monitor power switches are in the ON position.

Make sure that a Major Supported Timings has been selected for the display card in the system being used.

(Please consult the manual for the system or display card for supported resolution and changing the settings).

Check the monitor and your display card with respect to compatibility and recommended settings.

Check the signal cable connector for bent or pushed-in pins.

Make sure the connected device outputs a signal to the monitor.

To see a list of our TCO certified monitors and their TCO Certification (in English only), visit our website at https://www.nec-display.com/global/about/legal_regulation/TCO_nm/index.html

FCC Information

WARNING: The Federal Communications Commission does not allow any modifications or changes to the unit EXCEPT those specified by NEC Display Solutions of America, Inc. in this manual. Failure to comply with
